Former Pupils who became teachers at HGS

Have you ever noticed how many ex-pupils were on the Staff at HGS? We have counted 20.

The advantages of appointing Staff who would know the ethos and routines of the School must have been great, but added to this, a major factor would have been that each Head would know the backgrounds and characters of each applicant. Such long-serving Headmasters knew each of their pupils throughout the decades, and would have the advantage of knowing their full educational history. In welcoming back each person, they would have been well aware of the talents and the advantages they could offer to the School.

Additionally, there are 26 other School employees who owe their positions to the two Headmasters. The same philosophy would have applied to their appointments as HGS Secretary. Ex-pupils who were given their first job.

Richard White, John Heppinstall, Wendy Carter, Hilda Noble, S. Fieldsend, William G Branford, Margaret Turner, Joan Smith, Doris Gaskell, E. Race, Marjorie Oxley, Marie Johnson, Sheila Close, B.
